

Project Design Phase-II

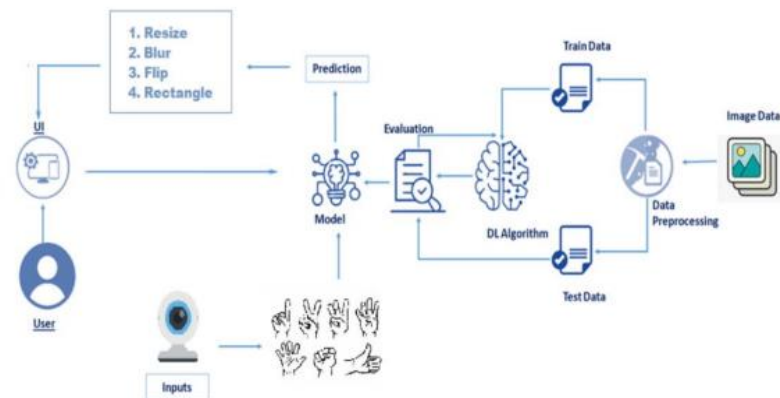

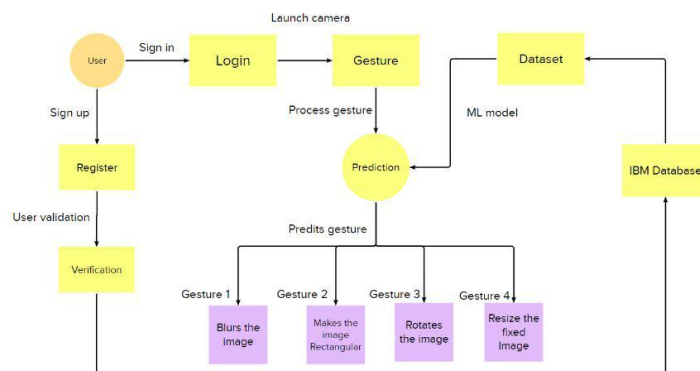

Data Flow Diagram & User Stories

Date	04 October 2022
Team ID	PNT2022TMID10905
Project Name	A Gesture-based Tool for Sterile Browsing of Radiology Images
Maximum Marks	4 Marks

Data Flow Diagrams:

A Data Flow Diagram (DFD) is a traditional visual representation of the information flows within a system. A neat and clear DFD can depict the right amount of the system requirement graphically. It shows how data enters and leaves the system, what changes the information, and where data is stored.

Example: [\(Simplified\)](#)

User Stories

Use the below template to list all the user stories for the product.

User Type	Functional Requirement (Epic)	User Story Number	User Story / Task	Acceptance criteria	Priority	Release
Customer		USN-1	As a user, I enter the home page, I face a welcoming sentence and there was also an intro button and launch button.		Low	Sprint-1
		USN-2	As a user, I click the intro button, it navigates to the intro page where I get a simple introduction about the application.		Medium	Sprint-2
		USN-3	As a user, I click the launch button, it navigates to the launch page where I can upload a picture.		High	Sprint-3
		USN-4	As a user, after I upload the picture, I click the predict button to for further process.		High	Sprint-3
		USN-5	As a user, after I click predict button, the camera opens and I show the gesture to modify the picture.		High	Sprint-4
